

Aziza Yalda Shirzad

Summary

- Software engineering is my passion and I enjoy exploring new technologies and solving problems with code. I have completed Software Development Boot camp recently and gained experience in basics of programming languages such as HTML, CSS, JavaScript, Python and basics of Database management MYSQL and MongoDB with Python. I have a strong interest in software engineering and a desire to pursue a career in this field. I am looking for an apprenticeship opportunity that will allow me to learn from experienced developers and work on real-world challenges.

Experience

GRAPHIC DESIGNER 02/2022 - 08/2023
Afghan FX

Designing Logs, building website with WIX and Go daddy
Editing Videos
Generated digital image files for use in digital and traditional printing methods.
Designed printed brochures, banners and signs, aligning visual collateral with brand mission and values.
Provided day-to-day artwork, receiving design briefs and fulfilling design requests across print and digital.

MATHS AND DIGITAL SKILLS TEACHER 05/2008 - 08/2018
Ministry of Education in Afganistan, Kabul, Afghanistan

Helped students exceed predicted grades by providing constructive feedback on coursework, homework and classwork. Planned innovative and creative mathematics lessons, designed to increase learning development and math knowledge and computer skills. Assessed student knowledge in various different topics through two terms exams, coursework and classwork. Conducted student assessments to determine areas for improvement and achievement to highlight. Developed students familiarity and competence with mathematical concepts, and computer skills . Managed student classroom behaviour and administered discipline in line with board policies. Worked cooperatively with teachers to modify curricula for special education students. Created classroom and computer lab environment conducive to learning for enhanced student outcomes. Selected and used wide range of learning resources appropriate for topic and level. Stayed up to date on the latest curriculum changes in computer science and mathematics by attending teacher training and researching. Planned, created and set assignments each week following course curriculum requirements and student learning needs. Took part in outdoor school programmes ranging from games to clubs and societies.
